### **Response from:**

**Candidate Benjamin Smith**

**Party Welsh Green Party**

**Constituency Cardiff Central**

**Dear sir/madam**

**We in the Green party including myself believe fundamentally that cycling needs to be encouraged everywhere possible! It'll help reduce our cities carbon output and improve the air quality of our city.**

**I would fully support the development of proper cycling access in our city. Creating a network of cycle lanes across our city should be a fundamental priority.**

**Kind regards**

Green MP Candidate for Cardiff Central**
